🎯 **Topic:** Database Management System   📚 **Subject:** Computer Science   📊 **Level:** Intermediate

🎯 Learning Objectives

1. Understand basic concepts of Database Management System
2. Apply knowledge of Database Management System to solve problems
3. Analyze different aspects of Database Management System

🏃 Activities & Exercises

• Q&A sessions

• Group activities

• Short quizzes

🔧 Required Resources

• Whiteboard

• Projector

• Textbooks

• Worksheets

📊 Assessment Methods

• Class participation

• Assignments

• Final test

📋 Prerequisites

• Basic knowledge of Computer Science

🔑 Keywords

`database management system`

`computer science`

`intermediate`

📊 Teaching Methods

• Lecture

• Group Discussion

• Practical Exercises

⏰ Weekly Schedule

Week_1	Week_2	Week_3	Week_4
Introduction to Database Management System (2 hours)	Core Concepts (2 hours)	Advanced Topics (2 hours)	Review and Assessment (2 hours)
